As a means to demonstrate fairness, the College will actively communicate our processing activities to data subjects. This will be visible by means of Privacy Notices, Privacy Impact Assessments (PIA's), website information and information updates if there is an unforeseen change to how we use personal data. The College cannot be held accountable if it receives data which is inaccurate or data not kept up to date.

5. Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes in accordance with Article 89(1) subject to implementation of the appropriate technical and organisational measures required by this Regulation in order to safeguard the rights and freedoms of the data subject – (Storage Limitation)

The College will not keep information for longer than is necessary with the exemption of Public interest, or scientific/historical/research/statistical purposes.
